Customer Complaints Handling Procedure

Document ID: CS-006 | Owner: Customer Experience | Effective date: 2026-03-01 | Version 1.0

This procedure explains how Nile Horizon Bank receives, tracks, and resolves customer complaints.

1. Complaint Channels

Customers can lodge a complaint at any branch, through the hotline 19999, by email at complaints@nilehorizonbank.example, or through the mobile app.

2. Timelines

Every complaint must be acknowledged within 2 business days, and the customer must receive a reference number.

The bank aims to resolve complaints within 15 business days. For complex cases, resolution may take up to 30 business days, and the customer must receive a progress update every 5 business days.

3. Escalation Path

Level	Owner
Level 1	Branch or call centre agent
Level 2	Complaints Unit manager
Level 3	Head of Customer Experience

If the customer is not satisfied with the final response, the customer may refer the matter to the consumer protection unit of the central bank.

4. Card Fraud Disputes

For disputed card transactions reported as fraud, the bank provides a provisional credit within 10 business days while the investigation continues.

5. Fair Treatment and Reporting

Customers must never be penalized or treated differently for lodging a complaint. Complaint data is analysed quarterly to identify root causes, and the results are reported to senior management.
