Savings Account Terms and Conditions

Document ID: SA-003 | Owner: Retail Banking | Effective date: 2026-01-15 | Version 1.0

This document describes the terms of the Nile Horizon Bank savings account for individual customers.

1. Opening and Maintaining the Account

The minimum balance to open a savings account is EGP 1,000.

A monthly maintenance fee of EGP 25 applies if the average monthly balance falls below EGP 1,000.

2. Interest

Interest is calculated daily on the end-of-day balance and paid monthly into the account.

Balance band	Annual interest rate
Below EGP 10,000	6%
EGP 10,000 and above	11%

Interest rates may be changed by the bank with 30 days' written notice to customers.

3. Withdrawal and Spending Limits

The daily ATM withdrawal limit is EGP 20,000. The daily point-of-sale purchase limit is EGP 50,000.

Higher limits can be requested through a branch and are subject to approval.

4. Dormant Accounts

An account is classified as dormant if the customer has made no transaction for 12 consecutive months. Bank-initiated entries such as interest and fees do not count as customer transactions.

Interest stops accruing on dormant accounts. To reactivate, the customer must visit a branch with a valid ID. After 5 years of dormancy, balances are handled under the regulatory procedures for unclaimed funds.

5. Joint Accounts

Unless the account mandate says otherwise, all joint holders must sign to withdraw funds. An 'either to sign' mandate allows any single holder to operate the account.

6. Closing the Account

Customers can close the account at any time. A closure fee of EGP 100 applies if the account is closed within 90 days of opening. After 90 days, closure is free.
